CONGRESS OF

European Unions Object to I. W. W. Workers-Child Labor in Dispute

MANCHESTER, Eng., June 8 .-Thirteen nations were represented at the opening session today in the Central Public Library of Blackpool of the ninth congress of the International Federation of Textile Workers' Associations. Among the various important subjects for discussion the liveliest interest probably will be centered in the question of whether the Industrial Workers of the World are eligible to affiliation with the Interna-tional Federation in the same way as the American Federation of Labor. the American Federation of Labor. Some of the more conservative unions are strongly opposed to admitting the I. W. W. on account of its avowed policy of Syndicalism. There is also sharp division of opinion on the question of raising the legal school age of children. On the Continent most of the unions aim at restricting child labor, instead of defending it, as is done by the cotton workers' arganization. done by the cotton workers' arganizations in Great Britain. The congress is expected to protest vigorously against the excessive and continually increasing expenditure for armaments and to declare for international arbitration. During the latter part of the week the delegates will make a first-hand study of the methods of the Cooperative Wholesale Society of this city. The congress, which is the first to be held in England since the inauguration of the federation twenty years ago at Manchester, will close on

Fire Occurred Saturday—Old Sanborn Residence

Destroyed

Saturday afternoon about 3:30 o'clock a fire destroyed the home of Frank Palmer at Tustin. The place is that occupied for years by the R. H. Sanborn family.

The fire started on the roof above the kitchen. Mrs. Palmer had been doing some baking and ironing, and had kept up a hot fire. On the roof was a large quantity of leaves that had fallen from a near-by tree. It is thought that a spark from the chimney started the fire.

it, the water supply being limited. Palmer and members of the family and neighbors joined in getting the furniture out of the house, and most of it was saved. The house, a big, over thirty years ago was burned to the ground. The loss was probably \$3000, partially covered by insurance.

The family spent Saturday night at the home of H. A. Allen, and yesterday fitted up the garage on the Palmer place for occupancy temporarily.

HORSE IS KILLED IN A RUNAWAY ON EAST FOURTH ST

George Ketscher was killed on East Fourth street Saturday morning as the result of a fall. The horse was one of a team which Ketscher was trying to hitch to a plow at his nurseries on Fourth street, east of the Santa Fe station. In some manner the horse started to run, carrying the doubletree with them. They ran west, and, after crossing the Southern Pacific tracks, one of the horses pulled toward the south and the other toward the north. The animals became entangled in the harness and one of them slipped and fell on the pavement, receiving injuries from which he died several moments later.

THE PASSING OF A TYPE

The government has been called in to help provide emergency help to harvest the crops. Kansas alone wants 40,000 men for its winter wheat. This is a reminder that the problem of finding good agricultural labor is a pressing one and grows more so.

The farm hand has been in the past a very sturdy and dependable type. As featured in the rural drama, he looked rustic and stupid. On an average, though, he had fair intelligence, and no end of capacity for a day's work.

He was not very ambitious, but was gifted with a philosophical temperament. He and the hired girl ate at the first and only table with the family, the food was good and abundant, he was sure of his future. As he spent little for clothes, and nothing for amusement, he usually had a fair savings bank account.

A farmer was remarking the other day that this type is about extinct. Instead, he now has to depend on roving young fellows. At best they look at farm work as a mere stepping stone to something else. At the worst they want to earn money for extravagant spending. Last summer he had a young man who left him with \$100 in the bank. A month later he came back and asked for work again, saying that his money had all

In many localities foreign speaking help is all that can be had. Those that have much intelligence usually prefer to buy a little land on mortgage and be their own boss. Also they prefer to remain in the company of their own people. One is rarely contented unless there are others speaking the same tongue near by.

R. P. Mitchell

With years of experience as teacher and principal and six years experience as county superintendent of schools, R. P. Mitchell's friends have no hesitancy in urging his candidac; for re-election. Mitchell is thoroughly familiar with every phase of school maintenance and operation in this county, and it is declared that his services as adviser to school trustees have made him a valuable superintendent. Personally, Mitchell is obliging and accommodating, and he has friends in every precinct of the county. He was raised west of the river, having secured his early schooling at Garden Grove before going away to

fit himself for school teaching. George Jeffrey
As one who feels that he knows the needs of his district, George Jeffrey of Irvine has announced his candidacy for supervisor of the fifth district. Jeffrey had a number of years experience in office work as a telegra-pher and railway employe, and has made a success of his business of farming. His hobby is roads, and he has made a study of practical road work. His desire, if elected, will be to secure for his district and for each precinct of his district their just dues. He declares that he is running pered or helped in any way that wil hamper him in doing his duty.

denies any political connection with any big interests of any kind. J. C. Lamb County Tax Collector J. C. Lamb is a candidate for re-election, and in his candidacy he has the backing of hosts been kept up to the notch, and it has been praised by grand juries and ex perts. In dealing with the public, his office has been known as obliging to a degree, even in the busiest of rush times. No one goes to his counter without receiving the utmost consideration, and care and time are taken to give the inquirer the desired in formation. Lamb has lived in this county for years, and he seeks office

PONCARE ASKS RIVAL TO BECOME FRENCH PREMIER

PARIS, June 8.—The exceptional difficulty in finding a premier in the present ministerial crisis is declared to be due to the manuevers of the radical followers of Joseph Caillaux against the president, to force him to resign or capitulate to them. President Poincare, it is stated, is resolved to do neither.

M. Poincare has invited Felix Ribot, the veteran senator who ran against Poincare for president, to take the portfolio. M. Ribot promised to give his answer today.

Painting Altercation Leads to Fracas and an Arrest

John Warman is twice accused. Each accusation is that of batters. L. Bressel is one accuser, and his wife, Mrs. Minnie Bressel, is the other.

According to the story told to Officer Lacy, who swore to the com-

plaints, Warman was employed to do some painting in the kitchen at the Bressel home. Dissatisfaction of some kind led to words, and Warman and Bressel mixed. As Lacy got the story, Mrs. Bressel attempted to pull Warman away from her husband, and Warman turned upon her.

Warman was arrested by Deputy Sheriff Boynton, who went to Garden Grove after him, and \$50 bail was giv-en. The trial is June 18.
